

I am a supporter of Air1 because I know the importance of the outreach this particular station provides, it is one of a kind. Air1 is THE station me and my six-year old daughter listen to everyday for uplifting, staying with the times, Christian music. Without Air1, our spirits wouldn't be kept as high. Air1 is a station my daughter will love to grow up listening to.

Air1 provides music in my local community that all different generations of people listen to and enjoy! If Air1 was not broadcast in our community and was replaced by a Low Power FM (LPFM) broadcaster, there is no telling what kind of music we would have in place of it or if anyone would even want to listen to that LPFM! The caring people in my local community want the best for themselves and the children and that is what I have found Air1 provides, the best.

Air1 plays Christian alternative music that reaches the souls of people of all ages all over the world. Some people may see the displacing of Air1 with a LPRM broadcaster as a way to stop the good God has provided through Air1 and I agree that it would. The way the media is so controlled by liberals nowadays it doesn't surprise me to see that Advocates of LPFM are proposing to expand that service in a way that would allow the new LPFM stations to take priority over current FM translator service. No LPRM station should take away the station that I, and so many others all over the world, are a financial supporters for! I do not want Air1 to be displaced in my community!! I am speaking for my daughter as well!!
